Summary

After analyzing the conducted survey carefully, it is observed that, a large proportion of 95% students will be attending the graduation party. More students prefer party to be organized off-campus on weekend. Preference for night party is more while for evening time, it is the least. 65% students can arrive at party on their own vehicle. The rest 35% will be using public transport to reach the party. Liking for Indian food is the highest that is, 80% however, no one likes to have Chinese food in the event. Among 20 students, there is one student who has food allergy from eggs. More than half students like soft drink while 35% prefer liquor to be served in the party. There is equal percentage of students who will either be coming alone to attend the party or will be bringing one guest with them. 65% students have liking for Punjabi music and about its half proportion like Hollywood music to be played in the party. When asked about fun events that they would like to have in the party, four students shown interest. 3 of them suggested events – Lukan Michi, musical chair, singing and dancing.

55.6% of students will give dance performance and 7 students will give speech in the event. Casual smart dress code has received more preference over others. Non-vegetarian students lead vegetarian food eaters by 5%. A quarter of students will be contributing up to 40\$ for party organization. However, 70% are those who will either be contributing up to 20\$ or will not be contributing at all. There are 40% students who like to receive party gifts in the form of work bag and gift cards and its half proportion choose the other option. Almost everyone like to have security services to be provided in the party. There are no other suggestions made by the conducted group.

Conclusion

It can be concluded from the obtained responses from 20 students, that, almost everyone is willing to attend the graduation party.
